

Carlisle

The Natural Choice

Every city scrambles to attract visitors to their little bit of heaven. Carlisle has been searching for just such an event, and we have found it! "It" is the Heartland Challenge. A ten-hour endurance ATV race is just the stimulus that Carlisle needs to put its name on the map. Never has there been such an event in the Midwest. Large four-wheeler racing events have before been held on one coast or the other. However, common sense dictates that if something is held in the middle, people will more readily come from both sides than if they had to travel all the way across, in this case, the country. This wealth of newcomers will certainly be a blessing for Carlisle. Welcome to our Community.
